

# auckland city centre residents' group

Image - russell street

We want our city centre to be a unique place that celebrates our human history, provides a quality living environment, and is focused on a sustainable future.

CCRG works to promote the liveability and quality of the city centre for all its 45,000+ residents, in a connected, lively, and safe community of neighbourhoods.

We do this across a spectrum of issues, via our advocacy and representational work. CCRG is for everyone who lives in the city centre from all ages, ethnicities, genders, and occupations. What we share together is the space we call home.

## CCRG's Mission

Is to represent and advocate for all Auckland city centre residents, to Auckland Council, the Waitematā Local Board, and other relevant city centre-influencer groups.

CCRG wants to make sure that the concerns of residents are heard, and to work towards achieving the best possible living environment.

We also work with other Auckland City Centre groups to deliver programmes and projects that make our city centre special.

Our aim is to continually work to improve the liveability & quality of life in the city centre

## ACT NOW - Join Us!

### You can help us make a difference – JOIN CCRG

#### Membership is \$25 & open to all who live in the city centre

- Keep up to date with what is happening
- Hear from some of our key decision makers
